According to the General Austrian Forwarder's Terms and Conditions, the freight forwarder is obliged to cover the forwarding insurance for each forwarding order at the expense of the customer. Exception: Written forwarding insurance prohibition declaration.

The respective value of the goods must be used to determine the premium. If no value of the goods is known, the forwarder will determine an assessment basis in accordance with the general Austrian Forwarders' Terms and Conditions (underinsurance is possible due to lack of knowledge of the actual value of the goods).

The warehouse insurance premium is due upon storage and monthly afterwards.

With a separate order, we cover our own transport insurance on attractive conditions.
